

“This color palette was designed to help you select from our extensive range of décors. Please remember that décors are available in a variety of exciting textures; from Mirror to Natural finishes, carefully selected, in our constant quest to offer products that we hope can suit everyone’s design needs.

To help you identify texture and color combinations, you will find on the right hand side of each décor, an identification strip. Décors are available in textures and product ranges which are defined here.

We have tried to the best of our ability to ensure that the décors’ shades in this color palette are as close as possible to the finished product; however, due to the difference in textures and gloss levels, the actual shade may vary.

“This digital book, however, doesn’t feature our complete range but only exclusive decors. Hence, for final selection, we strongly recommend that you visit one of our design studios or your nearest dealer/distributor. It goes without saying, that you can also contact us for any assistance you might need in your final selection, or technical assistance for product uses.

Happy designing”

Super High Gloss – our flagship mirror finish product
Generic name: UV

High Gloss - achieved using specialized chemicals and plates, comes with a P.E protective film

- Calcite
- Textile
- Vintage
- Brushed Oak
- Natural Veneer

DuraLam

The Makers of Lasani go one step further in creating Duralam; an innovative MDF Laminate product consisting of an added plastic wear resistant overlay that protects the decor from scratches and stains.

The product boasts a 3 to 4 times longer life than a regular laminate & is far easier to maintain.
